

**DECATUR COUNTY RURAL ELECTRIC MEMBERSHIP CORPORATION
GREENSBURG, INDIANA**

SCHEDULE IPS

INDUSTRIAL POWER SERVICE

Availability

Available in all of the territory served by the Corporation, subject to the Corporation's Rules and Standards for Electric Service.

Applicability

Applicable to consumers supplied at a single location who meet the following requirements for service:

1. Service to the consumer must qualify under the requirements set forth in the Industrial Power Tariff of Hoosier Energy Rural Electric Cooperative, Inc. (Hoosier Energy).
2. The consumer's monthly maximum demand must be at least 500 kW.
3. The consumer's monthly billing load factor must be at least 45 percent.

Type of Service

Service shall be three phase, 60 hertz, at available standard voltages.

Monthly Rate

		Primary Distribution Service	Secondary Distribution Service	
Facilities Charge:	@	\$50.00	\$50.00	per month
Demand Charge:	@	\$ 7.66	\$ 8.02	per kW
Energy Charge:	@	\$.028367	\$.028367	per kWh

Determination of Billing Demand

The Billing Demand shall be the highest consecutive 30 minute demand during the Peak Hours of the month expressed in kilowatts, but in no event less than 75 percent of the highest billing demand used in any of the preceding 11 months, or 500 kilowatts, whichever is greatest. Peak Hours are defined as those hours from 7:00 a.m. to 11:00 p.m., E.S.T., daily. The Billing Demand will be adjusted for power factor as provided below.

Power Factor Adjustment

The consumer agrees to maintain an average unity power factor as nearly as practicable. The Corporation reserves the right to measure such power factor at any time. When the average power factor in the billing period is less than 93 percent, the Billing Demand shall be adjusted by multiplying the maximum 30 minute demand by 93 percent and dividing the product by the average power factor in percent.

Billing kWh

The Billing kWh shall be greater of the actual kWh used during the billing month or 328.5 times the monthly Billing Demand.

Minimum Monthly Charge

The minimum monthly charge shall be the greatest of:

1. A charge of \$1.00 per kVA of required transformer capacity.
2. The contract minimum.
3. The applicable facilities charge, if any, plus the customer charge and demand charge.

Loss Compensation

The demand and energy charges are based upon service metered at the Corporation's primary distribution voltage and do not reflect any compensation for transformation losses. Demand and energy lost compensation adjustments shall be applied when metering is at a secondary distribution voltage:

Demand Compensation Adj.	\$.10 per kW of Billing Demand
Energy Compensation Adj.	\$.0003 per kWh

Distribution Facilities Charge

The Corporation may apply a facilities charge to the dollar investment in facilities requested by the consumer which are in excess of those normally provided. The Corporation may revise the Distribution Facility Charge percentage from time-to-time to reflect current level costs subject to approval of any state regulatory agency having jurisdiction over the rates of the Corporation.

Other Wholesale Charges and Adjustments

In addition to the base wholesale demand and energy charges which are included in the demand and energy charges of the Monthly Rate, the consumer shall pay all other charges billed the Corporation by Hoosier Energy for service hereunder pursuant to Hoosier Energy's Industrial Power Tariff.

Wholesale Rate Changes

Should there be any changes in the Hoosier Energy Industrial Power Tariff under which the Corporation purchases power for service hereunder, the charges and provisions of Schedule IPS shall change correspondingly such that the change in wholesale power cost is passed through to the consumer.

Terms and Conditions of Service

1. The applicant will be required to give satisfactory assurance by means of a written agreement as to the character, amount, and duration of the business offered.
2. In general, individual motors rated in excess of twenty (20) horsepower must be three phase.
3. Any transformers and regulation equipment which may be required for incidental lighting shall be furnished by the consumer.

Fuel Cost Adjustment

See Appendix "A"
